Divine Message ☯ 1

“All of you shall care for one another and be as one and I shall gather you from the four corners of the world. I shall uplift your souls from the gutters, to lead you from despair and doom with the ancient knowledge to 'Tikkun Olam' reforming world order.

*R*ighteousness and purity shall cleanse your thirsty souls, to prepare you for the future, teach you the secrets and unite your souls. In the distant future, I shall wash your faces in a turbulent ocean, earthquakes, and signs.

*T*his book is for the generations, contain my words. There is no anger, fury or punishment - all of me is love”.

I prayed to God: "Let me have everything so that I may enjoy life".

& God replied: "I gave you life - so that you may enjoy everything". A folk saying

Divine Message ☯ 2

*D*early beloved, Who is asking for assistance and guidance in your life, so you may understand where you should turn to next

***G**o to the wise and silent person,*
who does not ask for alms or provides you with talismans,
who does not walk in wearing fine clothes
or spends his time in temples and luxurious buildings.

*Y*ou will reach that person by word of mouth.

Be wise, go to the modest, quiet, and humble ones.

*T*he words of wisdom of heaven are spoken quietly with humor and a smile, not with shouting, threats and intimidation.

Not by might nor by power, but by spirit,
I am the LORD.

Introduction

This book was written using male pronouns, yet it is intended to apply to both genders. I would like to thank all those who purchased, received or borrowed this book. Nothing is coincidental!

This book received during channeling and typed directly into the computer. It was written to satisfy the public's curiosity with insights and knowledge which my soul has collected in its thousands of incarnations. All that is required of you the reader is curiosity, flexible thinking with a healthy sense of humor and a willingness to accept new ideas.

There will never be one truth, so do not believe this book but find your own truth.

The purpose of this book:

According to my second book: 'The Future', I decided to detail in this book about 'The Age of the Aquarius' out of the 12 ages listed in the book. **We are now separating from 'the Age of the Pisces' and gradually entering to 'the Age of the Aquarius' that will begin in the year 2106 and will last until the year 4212.**

It is important for each person to get explanations about the changes around him and what is expected of the future of humanity on Earth.

Before we begin, here are few basic insights:

☞ **There never was and never will be a single truth.**

Because it denies the right to choose. If there were only one truth - you would have been prevented from thinking otherwise; therefore, accept the contents of this book as an additional opinion that can enrich the knowledge you already possess.

It is important that you will have your own personal opinion and way of thinking, open your mind and never blindly follow other people's ideas.

☞ **You are all spirits made of souls,** temporary guests inside human visual forms across the universe.

Nothing was or will be yours forever other than your free will. Even your soul is not your own but was loaned to you.

☞ **Life is like a game of monopoly:**

Each player(a human living) begins at the starting point (birth) with a backpack (his soul's journey) and a roadmap, contains the player chosen main lines of his destiny, combined with the soul's secondary lines, that are created by the player during his life.

During this game, the player undergoes changes, buys/sells, builds/separates, ascend/descends, finishes the game's round (dies) and returns to the starting point and then starts all over again (the soul reborn in a new body or stay as a spirit) with a new roadmap (the lines of destiny) in a new location somewhere on Earth or in some other location in the infinite universe.

☞ **Your aim is to endlessly recreate.**

You are all originally - souls of spirit. You choose to be embodied in **material** living bodies for a short time, in order to testify to the nature of your **soul**:

- 1.) Who you are as a spirit.
- 2.) The nature of *The Creation (God's spirit)*.

☞ **God can never be ONE!**

The universe always allows a free choice between at least two options, that's why **God is not one entity but multiple entities** which constantly duplicate themselves.

☞ **No material will make spirit happy for long, only emotions will.**

∞ You cannot die.

You are made of spirit which cannot be extinguished. You're all eternal souls.

∞ "All is foreseen, but freedom of choice is given".

A question may occur:

"If all is foreseen - then where is the person's selection?"

And the answer is:

"The Creation (God) will never interfere in the human's choice. A divine pattern exists with the main destiny lines of each person while there is free will to select each move."

For example: driving a vehicle on an existing road that has multiple paths (= all is foreseen) yet **the right to choose** how and where to drive between those paths through interchanges and shortcuts **is given to you**, the driver (= freedom of choice is given).

You can lengthen or shorten your road, but eventually, you will reach the same target foretold.

All will happen - only time changes.

☞ All the diseases originate from the soul.

A spirit cannot be cured using only material; therefore, medicines (drugs) can't cure in the long term - but only can silence the problem which stems from the person's soul. In order to truly heal - you must combine the work of a doctor with a diagnosis of a medium and treatment from a healer.

☞ In every Galaxy, life can exist only on one planet!

Therefore, from the nine planets in the solar system, life can exist only on planet Earth.

The astrological sign of the Zodiac contains the order of the 12 Ages, which affects the ten planets surrounding the sun in the Milky Way Galaxy, including planet Earth - The only planet on which life can exist.

☞ All religions involve material and violate the free will.

Spirituality cannot be religious because the spirit is the opposite of corporeality.

A religious man: deals with a material: houses of worship, books, talismans, ceremonies, religious artifacts, and clothing.

A spirit man: does not deal with religion or material but communicate with *The Creation* without any additional accessories, but with modesty and inner quiet.

❧ **You do not need any mediators.**

All of you are associated with *The Creation* (God) once you have been created. You are all an infinite spirit with a soul that lent to you for your journey in a tangible body.

❧ **The humankind on Earth was created by The Creators =**

the Extraterrestrial, while planet Earth serves as an experimental lab. **You are a soul** (spirit) which embodied in a human body (material) **to indicate the nature of you - as a spirit, in order to indicate the nature of The Creation (God).** (Divine Creation, Lucy/2016).

About Religions

♦ **You do not need mediators**, you are all associated with *The Creation*(God) from the moment of your creation and all of you have been given a borrowed soul.

God is not in the religions - but in the spirit of faith.

God did not create religions or time - humanity did.

God can never be ONE - It's against freedom of choice.

There are no religions in the universe, but free will.

♦ **Religions get a tremendous impetus during the Age of the Pisces** that began with the nativity of Jesus: in the year **0** and continues until the year 2106 when the Age of the Aquarius overlap it from the year 1638 and will continue until the year 4212.

The Age of the Pisces belongs to the Zodiac's variable signs, so it always starts with goodwill and continues to madness and self-destruction. During that Age, the three main religions: Christianity, Judaism, and Islam expanded & were blown out of proportion, using extreme control, threats and intimidations by dictating to their followers:

- Arrival to prayer complexes and religious classes, setting dates of holidays and ceremonies, prohibited of mixing between believers from different religions; especially when it comes to marriage or burial then it get more absurd, as:
 - Marriage ceremonies that unite only those who believe in the same religion or burial ceremonies that allow only to 'their believers' to be buried on 'their land'.
 - By dictating to their believers what and when to eat, on which days to strike and fast.
 - Receiving donations up to the establishment of cults or radical factions.
- ♦ **All religions work in the form of unnecessary mediation agencies** between humans and *The Creation (God)* while they have been funded by governments, public and generation of believers.
- ♦ **Between all religions there is a consistent marketing competition** that promises to unite their believers and transform them to a 'better people' by giving them answers from the "holy" books, which mostly contain tales from ancient times, remember:
- ♦ **Material will never be holy - except the spirit of souls.**

♦ **The industrial-religion is rolling a ton of money** for generations by exploitation and servitude their believers into slaves in 'the name of God'.

♦ **Human beings have an ego; therefore, religions will not be able to exist in peace.** Historical evidence: Religions never have united but divided and dispersed hatred up to the extinction of all that is different and unfortunately, it's also relevant even today.

*Religion goes against human freedom of choice. In the universe, there is **no religion – but only faith**. It is the inner faith that makes the difference and not the external appearance. **In every aspect of life, the moment you ask 'why' and do not receive a logical answer, it is the time to rethink the matter.***

“ Around the world people pay their respects to glorify religious leaders clothed in various outfits.

Who is portrayed as more reliable and trust than true people of the spirit, such as mystics and mediums who are portrayed as flighty, strange or charlatans?

Person's outward appearance and clothing do not indicate his quality, integrity, reliability and true personality.”

Religions exist from the money of the government, donations, public and generations of believers.

There is a constant marketing competition between religions that promises to bring their believers closer to God', to make them 'good' people, practicing reading from 'holy' books which were written by men from ancient times, in their language and point of view. Religious industries are making tones of money combining brainwashing and fear without innovation, turning the believers into 'slaves of religion'.

A religious man: deals with a material: houses of worship, books, talismans, ceremonies, religious artifacts, and clothing.

A spirit man: does not deal with religion or material but communicate with *God/ The Creation* without any additional accessories, but with modesty and inner quiet.

There is no need for mediators to reach *God*. You are associated with *The Creation* by your very creative. Human beings have egos - therefore religions cannot coexist in peace and this is historically proven:

Religions have never united - they have divided and spread hatred to coercion, violated human freedom, exterminated the different, up to these days.

"There are no religions in the universe, but faith".

The material will never be holy - except for the soul. Religion is not spirituality. Religion revolves around the matter and it's contrary to human freedom.

In the approaching Age of the Aquarius religions will be replaced by free faith.

As the level of education increases, religion will decline. Every new creation - requires chaos first!

Chaos = Destruction for the purpose of a better new creation, as the following examples:

-In order to renovate, to create order at home or anywhere - you must create **chaos**: mess and clean, arrange and organize until the desired order is created.

-The creation of a planet requires **chaos** and the explosion of other planets - then a new planet will create from their star-dust.

-Thanks to the **chaos** of the Holocaust, the Jewish people were given the right to return from exile and establish a state in the Land of Israel otherwise, it would not exist.

-In order to delete the religions, **chaos** must be created by religious radicalization. As every new creation requires the destruction of the former.

The purpose of the universe:

You were created by the extraterrestrial / *The creators* on Earth (which is used as a laboratory for experiments) as proses of creating human beings, and you (which were created) will create other human beings and so on, endlessly.

Everything is made of a soul, you are a spirit embodied in a temporary body of matter.

The purpose of the spirit: to attest to its real nature and by that to testify to the nature of *The Creation*.

The purpose of the material: To continue the engine of *The creation* through a technological-scientific-spiritual creation that progresses infinitely.

Here are some insights:

- **Do not take anything for granted.** There can't be a single truth. Continue to explore infinitely.

The Creation will never provide one final answer but will hide in order to allow a choice, to discover. If all was known, then there was no point in the continuity of life. A mystery is permanent, this is the infinite motor of humanity.

- **The abundance is stabilizing and the lack is motivating.** It's adapted to all areas of life.
- **The number of souls in the universe is limited.** Every soul that comes in - requires another soul to leave, every birth requires the death of another.
- *The Creation* will always allow humanity **freedom of choice** and if humanity approaches self-destruction, then *The Creation* will intervene to prevent it.
- **Humans will not be able to destroy Earth** - only to destroy the temporary life on it. The Earth lives billions of years and it does not need oxygen, water, soil or natural resources to survive, yet humans, animals, and nature need them.
- **You were created** on earth by the extraterrestrial/*The creators*, in order to create human life, animals and nature, in order to attest to the nature of the spirit which embodied in the matter.
- **The material cannot please spirit (soul)** for long, emotions are associated with the soul and not with the matter. All diseases originate are from the soul.
- **It is not possible to heal a soul by means of material alone;** each person has the natural ability to heal his own soul and body by activating his DNA coils.

- **Everything lives and breathes around you** with resonates and frequency, both on Earth and in the universe when everything is connected and dependent on one another.
All the planets in the solar system are energetically linked, the movement of one - affects all the rest. So destruction in one part of Earth - affects all parts of it and affects the stars of the solar system. Continued environmental destruction in one part - will cause natural disasters in other parts.
- On Earth as the whole universe, **states of matter** can be changed, but never annihilated or destroyed.
- **You are an infinite soul.**
All souls belong to one soul that crashed in the Big Bang, dispersed in the universe and created life on one planet in every galaxy.
- **Nothing has been and will not be yours forever,** even your soul is not yours - but lent to you.
- **Every soul (spirit) chooses to be embodied in a temporary body on planet /Earth** - in order to testify the nature of your spirit and *The Creation*.
- **You cannot die.**
Life has no beginning and no end. You are infinite souls and will not cease to exist, but to change the states of accumulation between spirit and matter.

The material world

The soul as spirit chooses to be embodied in the matter, in the hierarchy of matter:

- 
- ✓ Dust, stone.
 - ✓ plant.
 - ✓ Animal.
 - ✓ Human beings or form of extraterrestrial.
 - ✓ Up to enlightenment in the living body.

The Spirit World

The soul ends its incarnations in a material world and according to the amount of enlightenment within it can rise above as:

- 
- ✓ entity.
 - ✓ Angel.
 - ✓ Return to the original as light and unite with *The Creation*.

At the time of death, each soul returns to its original state as *a spirit of light* and chooses without ego to reincarnation again as spirit or material. The soul can return thousands of incarnations to the point where it reaches enlightenment in a physical body.

The soul chooses to reincarnation in a body such as: Earth, plant, animal, man, alien, being light, angel, etc. until it returns to its original source as light.

The amount of enlightenment within the soul is what enables the soul to rise from the material world to its place in the hierarchy of the spiritual world.

The entire universe is in the dark and there are only a few bright spots in the universe, the sun shining half a day to allow humanity to discover what already exists in darkness.

Every soul has a role in this world. After death, *The Creation* will never be angry or punished but will give compassion and love to all. Every soul can move up the spiritual hierarchy or go back to the physical hierarchy to correct its way.

About me

As a child, my parents were busy providing and I had a great deal of quality time by myself with an active imagination, patience with fearless of experiencing new things. At the age of six, I began to hear & see beyond and have conversations with deceased relatives. I noticed that when I asked a question - then a reply immediately popped into my mind with a vision. At the time, I thought that my experiences were typical to all children, but over the years I discovered that I'm the weird one who is exceptional. Out of boredom and loneliness, I opened up to the world of the spirit, there I felt protected and there was no one to stop me or doubt my inner world.

Over the years, I completed my studies in architectural engineering and worked for many years in this field, yet I received that my real destiny is: to transfer messages, especially while the humanity is entering the Age of the Aquarius during my lifetime.

I'm a spiritual woman, non-religious but full of endless faith in *The Creation* and *The Creators* because religion contradicts the human freedom of choice. I serve as a vessel for passing through messages.

Mystical events in my life

Realization of destiny

During my twenties, after many years of working as a practical architecture, I decided to quit my job after receiving an inner message: *“My dear, it is time for you to go. The department is about to close down. This is the right time for you to **begin fulfilling your true destiny.**”* I shared this message with my manager, but despite his lack of faith a short time after I left - my prediction came true! This incident strengthened my sense of confidence to fulfill my destiny - working as a medium.

A messenger

I entered a restaurant and noticed an old man in tattered clothes look at the restaurant’s window, it felt as only I saw him. I went outside and put some money in his hand; he returned it back and said: *“I don’t want your money, I want to eat.”* He refused to come inside and stayed on the sidewalk. I bought him a meal and gave it to him. He kissed my palm and took it. On my way back inside I turned back to him but he vanished! A messenger was sent to test me.

Encounter with extraterrestrial (Aliens)

One night I woke up and felt my entire body paralyzed except blinking my eyes. I saw two aliens standing in front of me, looking at me, their appearance was: height around one and a half feet, head shaped like an upturned pear, eyes large and cat-like, no eyelashes or body hair, small mouths, and noses. I wasn't afraid and began to communicate with them through telepathy: *"Why it took you so long to come? I've been waiting for you since an early age?"* they responded: *"We've been here all the time; **you are the one who wasn't ready**".*

I remembered from that encounter how my body rose in the air and with a single blink they rotated me as I was floating in the air, so that I faced the floor and were led through my room's open window to around spaceship covered with small illuminated windows with unusual structure of links that make up the spaceship's floor. I received some kind of treatment in the spaceship, but they erased my memory. In that same night, I received the ability to see X-rays even remotely. In the following day, I woke up extremely tired. Over the years up to these days, I continue to communicate with them.

Trip to London

I went with a friend to London. We took a ferry at the river Thames. During that cruise, I closed my eyes and saw a vision: 'the entire city of London is on fire'. A few weeks later, I discover about *'The Great Fire of London'* that broke out in the year 1666! As we were celebrating my birthday, we went into a big toy store on Oxford Street. My friend announced to one of the salesmen that I'm a medium, which he insisted to receive a personal message, so I told him: *"You were here in London at the age of 17 on a family trip with your parents and your little sister"*, he was stunned: *"It's true! How did you know that? I will gather the rest of the employees, please come to the fifth floor."*

Without requesting it, I found myself on the fifth-floor channeling volunteer for the store's employees. In one special case, one manager approached me so I asked him: *"Why are you sad? Your sister is already feeling better after her operation."* He was surprised and told me that his sister had undergone heart surgery. I began to see her heart from afar, using an 'x-ray vision': *"The source of your sister's heart condition was the lower left valve, which separates the chambers of the heart, it did not function properly and the problem was fixed"*. He called his mother which verified all the detail!

After four hours we came out of the store and while we were standing on Oxford Street, I told my friend to look up at the sky: *"The Creation is sending us a message and a hug from above."* Shortly after, an airplane emerged and marked a white stripe.

The woman in black

One morning, a seventy years old woman came for a channeling session. She wore a black dress; her hair was black and disheveled. She sat in front of me and began to complain how mystics have 'ruined' her life by not allowing her to ever experience love or marriage.

I felt her negative energy and noticed a satanic male entity dwells within her, so I immediately protected myself and asked that entity: *"What have you come to me seeking? What is it that you want? I am protected, you cannot harm me."*

The woman continued complaining and began to curse; so I asked her to leave. An hour later I smelled something burning in the room and when I rose my head up I saw a "fiery flame" erupting from the top of my head. I put out the fire; some burnt pieces of paper fell down but amazingly my hair and scalp were not damaged. I sent the energy back to her and I asked from *The Creation* to let justice be done.

Out of body experience

One night, I woke up from my sleep paralyzed without the ability to move besides my eyes. On the wall in front of me, I saw a wide camera film open up and in it three picture frames. Paralyzed I saw myself in a form of a hovering white dove, flies between several images from my previous incarnations. My soul rose out of my chest and entered into the first picture frame. This process repeated itself three times.

In each frame I saw myself in different places, speaking a different language until the whole process ended.

Moments later, a spiral white light appeared in front of me and it began to turn in a circle, while tiny chubby color angels, without any sexual identity, were flying around the spiral and heavenly music of harp was in the background. Wow! That was a divine experience!

The prince of darkness

I borrowed a spiritual book and read the first half and agreed with almost everything written in it. In the following day, while reading the second half, I realized that the contents were not as “enlightened” as I had thought. I saw it as a moral obligation to note this in my first book.

At midnight I placed the book on the nightstand and sunk into a deep sleep.

Suddenly I opened my eyes and couldn't move besides from blinking, I lay on my side paralyzed and felt that someone kneeling on my bed behind my back, pressure had been created in the mattress. Someone's elbow pressed into my right arm and I felt pain.

I saw that it was a male figure with a bull's head with thick glowing gold horns, which emerged from the upper part of his forehead. The pain in my right arm gradually intensified. I decided to speak with him voicelessly and politely asked him to leave and not bother me. I heard devious laughter from his throat. I summoned angels and entities to come and help me.

He applied force on my right arm, approached my right ear and whispered: *"Who do you think you are to dare write about me in your book? You mustn't write what you've intended to or slander my name. You are unaware of the fact that I have a respectable position in the universe in order to allow a free choice to all. You shall never publish the name of the book you've read and if you will do so - then I will visit you again... And while I'm here let's testify your forces."*

He applied increased force on my right arm and that was so painful. Suddenly I felt a "ball of light and fire"

stirring in my belly and it reached my chest, entered my right arm which rose up and pushed him away.

The Prince of darkness/Devil disappeared in an instant. I decided to share that encounter: **The devil does exist and has a place in the universe.**

I realized that good and evil do not exist. Maybe what's good for one person - is bad for the other. Everything is relative.

Everything exists around you in pairs:

Male and female; day and night;

darkness and light;

devil and angels; heaven and hell.

You even have been given the ability to lie,

because always telling the truth

will avoid you to choose.

All is done in order to balance

and allow you a free choice.

My mother's death

Six months before my mother's death, while she was still clear-minded, I had a dream in which my mother appeared alone in a room and told me:

"Hash.... don't tell anyone that I'm here. Only you can see me. They are asking me in heaven to decide whether to stay here or to leave. What do you suggest I should decide?" I replied: *"Mother, I have no right to decide for you that is a decision only you can make."* She replied back: *"O.K, I'll think what I should do"*, after that, I saw the number five.

Friday at four o'clock in the afternoon, I received a message to rush to the hospital. As I began driving toward the hospital, I felt that my mother was sitting in the passenger seat beside me, she said:

"I came to say goodbye. I chose to leave now, on a Friday afternoon when there is little traffic on the roads because I know how much you hate traffic jams".

As I entered her room in the hospital at five o'clock, as in my dream! I found out that my mom passed away while I was driving. I saw a vision which she was standing, smiling, healthy, happy and suffered no pain while she entered *'The tunnel of light'*.

We are all made of souls; therefore we cannot die only changes form and keep on moving.

The soul is infinite. Each soul enters a host body - at the time of birth and exits it - at the time of death, then the soul transfer back to a spirit. Each event that occurred in your lives was meant to be - because you chose it! All to achieve personal empowerment, mature, to complete cycles and make a correction with your karma. You have received the most precious thing which no one else can give you and that is life - the only sacred thing.

You cannot die.

***You are an infinite soul that testifies it self
by learning through being in
a temporary material body,
to attest to the nature of the soul's spirit
and of The Creation / God's spirit.***

Fear results from - the lack of knowledge.

Knowledge is power - which chases fear.

If you know - then there is nothing to fear.

Chapter 1

About the Ages

This book was received by channeling and was written later on in my first book, 'Divine Creation': that contains insights and explanations about the Creation of human beings, the purpose of humanity and *God/The Creation*. In my second book, 'The Future' I periodicity all the 12 Astrological Ages, which directly affect humanity on Earth. There is no coincident, every action has a hidden purpose, a divine pattern and an astrological-numerological cycle, when the Zodiac moves back from the order we are accustomed to astrology, so after the Age of the Pisces, the Age of the Aquarius will begin.

Each Age lasts 2106 years.

Age-rays always begin 468 years before each age.

An Age: is associated with one of the 12 signs of the Zodiac and it's influenced by the age before and after it. Each age has positive and negative features which affect humanity on Earth: the environment, brotherhood, social, technology, sciences and more. Each new creation requires destruction of the previous.

Age-rays: As the Sun-rays appear before Sun-up, similarly the Age-rays rise and appear 468 years before the beginning of **each age**, and the change will always be done through **chaos**, revolutions, wars, natural disasters and etc.

"The beginning of every creation - requires chaos first."

As the Sun-rays appear before Sun-up, similarly the Age-rays rise and appear 468 years before the beginning of **each age**, in this way, there is always an overlapping period between ages toward the entry of the next Age and so on. The astrological zodiac contains all 12 ages and affects the solar system.

The Age-rays of the Pisces, which were aggressive and destructive, **began in year 468 BC** when scientist Pythagoras became known as 'the father of number theory'. The age of Pisces began in the year **0** (the birth of Jesus) and will continue into the Age of the Aquarius, up to the year 2106.

The Age-rays of the Aquarius began in 1638 AD, when Galileo Galilei, 'the founder of modern science' in the fields of physics, astronomy and mechanics, he ridiculed religions and discovered that all planets Surrounding the sun. The Aquarius Age will begin in the year 2106 and will continue up to the year 4212. (The Future, 2017).

The Ages cyclicity **moves backward** in the Zodiac:

From **Taurus**  to **Aries** (& not to Gemini).

From **Aries**  to **Pisces** (& not to Taurus).

From **Pisces**  to **Aquarius** (& not to Aries).

From **Aquarius**  to **Capricorn** (& not to Pisces)...

The beginning of the Age of the Pisces began in the year 0 with Jesus/Joshua, The God messenger which has a significant role of a new order on Earth. The Age of the Pisces = the Age of men;

Therefore a Jew male messenger ("You shall be a light unto the nations") that was sent by creation to Earth, in order to abolish the religions and to open a new non-religion era without idolatry but faith.

Jesus preceded his time in an era, absurdly and unintentionally he created the religion of Christianity. In the Age of Pisces, the three religions: Christianity, Judaism, and Islam - expanded into monstrous proportions. The double or two-sided Pisces sign (along with Libra and Gemini signs) always starts with a good will to help and goes on to power, control, extremes, madness and self-destruction.

All religions are unnecessary "mediation agencies" between man and The Creation and are based on brainwashing and writing to their followers:

When to fast or set holidays, to defame and hate the other to the point of killing and annihilating the other. (Such as circumcision, marriage, divorce, ritual purity, kashrut, conversion, etc.), which are determined and run with an old-fashioned opinion of religious clergy without freedom of choice, allow only to their believers to be buried in 'their land' , set by hierarchy, favors and corruption, until the establishment of channels of communication, cults, extremist factions and all under the auspices of religion.

Up to an absurd reality: the establishment of the Vatican State!!

This is a Christian religious state that exists in Rome under the patronage of the Pope, when the absurd is that the Romans themselves crucified and killed Jesus!!

∞ The Ages times tables ∞

An Age: continues throughout **2106** years.

An Age Rays: appear **468** years before the beginning of each Age, it creates a gradually overlapping period between Ages.

The Astrological Ages order	The beginning of the Age Rays	The beginning of the Age

Chapter 2

The Age of the Pisces

The Age of the Pisces

It is important to mention the properties of the Age of the Pisces, from which we are separating in this period, in order to explain what is expected for humanity as we are entering to the Age of Aquarius in the year 2106:

Age-rays: began since the year 468 BCE.

The beginning of the Age: since the year 0 AD, Jesus birth.

The end of the Age: With the entry of the Age of the Aquarius from the year 2106 CE.

Circle 7 - Cyclicity 9: (7) An age of spirituality, knowledge and inventions, introspection along with (9) chaos, wars, ending and starting a new beginning.

The Age-rays are always began in the year (-) 468 BC
Calculation: year 468 (-) = 468-0; $4 + 6 + 8 = 18 = 1 + 8 = 9$

Each Age lasts for 2106 years and will end in year $2106 = 2106 + 0$.

The sum of the Age digits or Age-rays is always 9 = completion and preparation for the new.

The Age of the Pisces belong to the changing signs (among Libra and Gemini) always starts with good intentions yet with moods and destructive tendency.

Pisces sign has the element of water, its star is Neptune, this age embodies a paradox between spirituality, scientific discoveries and technological innovations along with power, control ,and self-destruction.

The properties of the Age of the Pisces:

Positive properties:

Education and aesthetics, compassion and empathy, creativity, sexuality ,and spirituality.

Negative properties:

Moods and schemes, power and control, vulnerability, stubbornness ,and self-destruction.

Signs of the ending Age of Pisces:

The Age began in year 468 (-) BC: In this year, Pythagoras became famous as 'the father of number theory', he also claimed that the moon was rough and had mountains similar to those on Earth.

The year 0 AD - the birth of Jesus: *The Creation* sends Jesus as a high light entity to Earth in order to open a new age.

The mother of Jesus, the Virgin Mary symbolizes the complementary Virgo that is located opposite to the Pisces sign in the Zodiac.

The Age of the Pisces is the Men Age and Jesus as a man was born to spread the gospel, he came to abolish the religions and unite humanity with free faith. **Jesus was a Jew prophet who preceded his time** (Jews: "You shall be a light unto the nations") and presented *God* as a collective entity and not as a source of fear but forgiveness and love, all come from the same source regardless of religion, nationality, sex or race. Jesus pointed out that material achievements are marginal and that it is not right to invest in anything as fleeting as the body and matter but to invest in learning, thinking and creating that will lead to discoveries which will advance humanity and without studying religion, history and archeology, which deal &

discuss the past without contributing anything to building humanity future.

Only science will march humanity!

Multiple births, worshipping religions, rituals ,and blind faith, deprive from people their freedom to choose for themselves, that is forbidden by *The Creation*.

All these create generations of slavery, economic burden on the society, stuck in one place without renewal, that doesn't advance humanity scientifically and technologically.

Only education, science, and rethinking will produce innovations, technological-scientific and medical development will lead humanity to its destination, in order to create other human beings, animals and naturalized nature & they will create the same & so on.

From the year 2016 until the year 2106 = 90 years = preparing the humanity for the Age of the Aquarius.

The Age of religions

Faith in material and religious coercion.

The Age of the Pisces always starts well:

Bringing new believers from a good place of helping others, giving and compassion. Civil unions, community volunteering, religious jobs, building prayer houses: temples, churches, mosques ,and synagogues. Religions can not allow freedom of choice, otherwise, they will lose their power to control.

And goes on to power and extremism:

Religious coercion and persecution, forced conversion, religious orders, rigid religious laws, the killing of populations under the auspices of the Crescent and the Crusades, the Inquisition, pogroms, massacres of peoples, tribes ,and races. (By the way, Judaism never conducted a worldwide killing campaign of coercion), continues to ghettos, extermination ,and Holocaust.

There is a Religious competition in the construction of prayer houses in size, to demonstrate their real power in the field. There are also brainwashing cults: Scientology in Christianity, Kabbalah in Judaism, Jihad in Islam, etc.

Religion is the longest-lasting mass scam.

There is a reality of devising religious guidelines as much as religious leaders want: getting to prayer sites, religious lessons, what and when to eat, what to wear, when to strike and fast, defamation of other religions and pagan rituals (such as: circumcision, marriage, divorce), funeral ceremonies that allow only to their believers to be buried in their section of land and all who are different are ostracized. Hierarchy and corruption, receiving donations and benefits up to the establishment of religious communication channels, cults ,and factions. Even Kabbala is not spirituality, but 'friendly and cohesive brainwashing', on the one hand it unifying but being managed like any other religion: by a clergyman, setting procedures, laws, transferring lessons in a media channel and supported by donations From her followers. **The material will never be holy except the spirit of the soul.**

'Holy books' were written in ancient times by men "*in the name of God*" and by brainwashing marketed to the masses by priests, rabbis and imams who received public funds and government to build prayer sites, *The Creation* is aware of its power and does not require the enslavement of man. There is no need to recite verses, laws, prayers ,and ceremonies. This is idolatry! *The creation* (spirit) is not to be subjugated through matter (religions) but through inner free faith (spirit).

This is the insight that Jesus tried to send in his generation, which divinity is not in matter but in the spirit. He was crucified in order to control people and not to allow them to start thinking for themselves. How will the religious industry survive without public funds?

In the approaching the Age of the Aquarius, the **men power** that dominates **will be replaced by female compassion**, the image of the women will intensify and **Jesus will reappear in the form of women.**

Once they dictate to you: 'to do and not to do'; it is the time to use your logic, because this is not spirituality and certainly not divinity.

Creation will never act out of power and control over others but will allow free choice, equality, love ,and compassion.

All people are born naked and equal, one does not transcend the other and certainly not through religion. Every religious person has been brainwashed and acted as a machine out of the 'herd effect', without free and modern thinking. People adopt a religious appearance (outward clothing and appearance) in order to feel 'purity' and belonging. *The creation* sees this as lack of progress, lack of logic without self-choice, in external disguise dictated by a community as a herd, combining laws, rituals ,and **glorifying the visible matter over invisible spirituality.**

All religions were invented by men in antiquity time; since then religions glorifying the men over the women, out of fear of her.

The way to control another is to deny their rights! Human freedom above all. There is no existential right to control another person!

Spirituality requires freedom therefore, religions are not spiritual and will eventually be destroyed during the Age of the Aquarius that will begin in the year 2106.

Aloha is singular, God is many.

The Creation always gives you a choice from at least two options, Therefore God can never be one.

Divine Creation = the cosmos duplicates itself forever.

The sign of Pisces: Water ***Liquid-based inventions.***

The Age of the Pisces always starts well:

In this age, transportation that floats on the water were created and people learned how to turn water into energy, such as: sailing boats and ships on the water, water mills ,and dams. The techniques for marine transportation(liquid), the construction of rowing boats, steam-powered boats, diesel engines ,and electricity have been improved. Pumping of fluids and fossils from the Earth's soil and turning them into fuel (liquid) for global transportation. Maritime traffic opened the period of discoveries, connected people an across the globe, opened the economic and trade market between countries and help mix cultures between countries. This movement continues to this day in global globalization.

From the year 1440, sailors from the European continent, such as: Marco Polo, Christopher Columbus, Vespucci Amargo, Vasco da Gama, Captain Cook ,and others, sailed around the globe and brought the world's citizens together with exchanging trade between continents, transporting people and goods. While mixing global cultures, this characteristic continues to

this day and contributes to a commercial competition that reduces prices and increases the variety of produce and merchandise, with open global trade, fast and cheap, everyone can trade without limitations. These moves will develop further in the approaching the Age of the Aquarius, a great future in front of us.

Since 1638, with the arrival of the Aquarius Age-rays, we can notice a combination of the signs of Pisces (water) with Aquarius (air) as pressure pumps which push water by pressure, fountains, sprinklers and pipes for rainwater, drinking and irrigation, construction of dams, pneumatic pumps by air pressure. See hydraulic pump diagram from 1728:

And goes on to power and extremism:

The sign of Pisces love power, control and money, this is expressed in building wooden ships for discovering countries and the need to conquer. Those ships transport people, food, spices along with weapons, mortars, and cannons. Up to building huge ships, such as: Cargo ships, yachts, pleasure ships, containers, destroyers and submarines with weapons, bombs and warplanes.

A huge shortage of drinking water

As we separate from the Age of the Pisces, that symbolized water, similarly, we observe the signs that we 'separate from water' = lack of drinking water.

In the the Age of the Aquarius, there will be a huge shortage of drinking water, this fact is absurd when it comes to Earth that contains mostly water.

Desalination and sewage treatment methods for reusable wastewater will be constructed in public and domestic facilities.
