Chapter 1:

Who are we and where do we come from?

How did humanity first settle on planet Earth?
Is man really a descendant of the gorilla or not?
What are the Ten Commandments and were there more or less than ten?

As a great believer in *The Creation* (God), I respect religions, but I'm not religious thanks to the freedom of choice.

I do not belong to any organization, political party, movement or sect. I have no desire or motivation to become a guru or to glorify one person or another, certainly not myself.

All religions contradict the human beings' right to freedom of choice. The moment a religious person dictates to others a list of do's and don'ts which they must follow, he deprives them of their freedom of choice.

A few insights:

- **If there was only one single truth**, then you wouldn't have had the freedom to choose and believe differently, in order to continuously recreate everything in life endlessly.
- **Every book is written from the viewpoint and education of its author** according to the period of time in which he lived. Therefore, you should always have open-minded thinking.
- In order to reach a decision in life, you should **always listen to both sides**, as a judge does, which is why we have two ears.
- Over the years, mostly men ruled the world with the Divide and Conquer strategy. Therefore, men created numerous religions, faiths, languages, educational methods, organizations, stock exchanges, monetary currencies, governments, cities, and so on.
- It is very important that the inhabitants of planet Earth adopt English as a single world-wide language, as it is nowadays, where English is used to communicate internationally.

Chapter 2:

God, religion, and other insights

Who is God / *The Creation?*
Is it a single or plural entity?
What language does he speak?
Why doesn't he reveal himself to us?

There are no religions in the universe, but only faith.

- **God is an infinite cosmic energy full of light, love which duplicates itself constantly, and exists everywhere and in everything.** It creates worlds, stars, spirits, souls, and all the matters. It makes the universe go around perpetually and it is the source of religions, sects, nations, and languages. It gave human beings freedom of choice, so they could choose. God speaks all languages.

.....

The moment humanity on Earth gives birth using IVF technology, by manipulating nature via artificial pregnancies, they are ‘stealing’ spirits from other planets.

And if you know that what you do comes back to you, then the karma will return. Reduction of population is only a matter of time, by manipulating and frightening citizens to get vaccinated. There is a plan and order in the cosmos. Everything happens for a reason.

In order for a spirit to enter a body as a soul, then a soul from another body needs to exit in order to maintain the quantity of spirits balance. Each birth requires death.

.....

- The soul of the newborn enters its body only at birth, at the time it takes its first breath. **A situation in which two souls inhabit one living body is impossible.** The fetus feeds and breathes through the umbilical cord attached to its mother.

The soul of the fetus enters its body only when it is already outside the womb at the time of birth, when it takes its first breath. Therefore, **abortion is not considered a murder**, because the soul of the baby has not yet entered its body. Women can have a clean conscience, as they are not murdering anyone.

*For the problem will not be solved by the sword,
but with words of justice, recognition, and love”.*

**How is it possible that a tiny country like Israel makes
such global noise?**

The Jewish nation designation is to bring light and message
and to be an example around the world, in the same way that
Jesus was a Jew, who brought a light and new message to
the world, in favor of demolishing all religions. The karma
must be fixed and Jesus will return to Earth in the upcoming
era, in order to accomplish what wasn't done then.

.....

Many corrupted powerful Jews world-wide are descendants
of the **Khazarians from ancient Shumar (Iraq), calling
themselves Zionists**, who hate Jews and hide behind
Judaism, in order to annihilate them, as has happened
throughout history (pogroms and holocaust).

Therefore, they built the Jewish Khazarian Zionist state in
Israel, while they hide as Jews in government and all
institutions, since the establishment of the state of Israel, in
order to obliterate the Jews for good.

Every karma returns, in order to repair by chaos, until the
Jewish citizens, who are victims, will be revealed to the
shocking truth and eliminate the Khazarian Zionists from
Israel and reorganize a new state name, flag, and national
anthem, of their own, with the assistance of USA. **Israel will
become state number 52 of the United States of**

America. This is biblical, as in the word JerUSAlem, USA is mentioned. Jerusalem belongs to the USA and this is a karma which will be fixed.

.....

The moment there will be peace in Israel, then there will be peace all over the globe.

The Israeli nation should be admired, for taking many difficult roles upon themselves, such as bringing enlightenment, divine messages, awareness, peace, and insights to the rest of humanity, as Jesus did, as well as what this book does.

Insights about Life:

1. It is impossible to die, since you have an eternal spirit.

Internalize this insight and your fear of death will disappear, as your way of thinking will change, there won't be any reason to invest any more resources in armies, security, weapons, and wars. All resources will be available to serve the goals they were intended for:

- Science and technology.
- Education, quality of life, and research.
- Protecting human rights and preserving animals and nature.
- Finding alternative natural resources of energy other than fuel, and so on.

China

There are over a billion Chinese citizens, ruled by a dictatorship communist government, which does not respect freedom and human rights for its citizens.

Most of the citizens are poor and lack higher education. The Chinese have the largest population on Earth, yet they are the most cowardly and obedient people, who are afraid to rebel, and even assist the government to maintain order.

The Chinese regime is trying to control the world. This regime is afraid of the power of its citizens, who might rebel and overthrow it. Therefore, citizens are not allowed to connect to the world-wide social media networks, but only local ones under government supervision. The regime uses a vast number of policemen, law enforcers, corrupted court, and injects spies among the citizens.

We are entering the Aquarius Age, in which only this Age decides what will happen on Earth, every 2106 years.

Towards this age, truth will be revealed, justice will be done, and the power will come back to the citizens world-wide, which will replace all governments with communities, using divine chaos. Therefore, the Chinese people will rise up and abolish all corrupted people, who cooperate with the evil regime.

*China is trying to control the world, in an evil manner.
God / The Creation will not allow China to continue
destroying humanity!*
